Ideation Phase
Define the Problem Statements

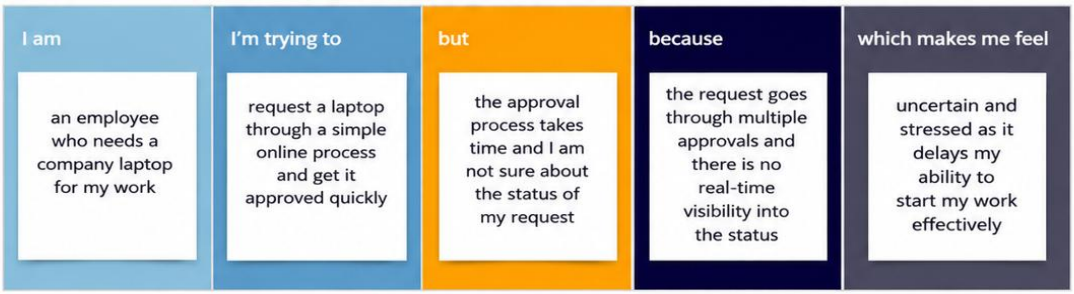

Date	September 2026
Project Name	ServiceNow-Based Employee Laptop Request Application

Customer Problem Statement Templet:

Create a problem statement to understand the employee's point of view. The Customer Problem Statement template helps focus on the challenges involved in requesting, approving, tracking, and fulfilling company laptop requests through ServiceNow.

A well-articulated problem statement helps the team understand the challenges faced by employees, approvers, and IT administrators and supports the design of a centralized, transparent, and efficient laptop request process.

PHRASE	WHAT IT MEANS	EXAMPLE (LAPTOP REQUEST PROCESS)
I am	Identify the user or role who needs the solution.	Describe the employee, role, and need for a company laptop.
I'm trying to	Explain the action or goal the user wants to achieve.	Request the right laptop and complete the request process efficiently.
but	Describe the challenge or problem the user faces.	Approval delays, incomplete information, and limited status visibility can hinder the request.
because	Explain the root cause or limitation.	Requests may require multiple approvals and manual follow-ups without a standardized workflow.
which makes me feel	Describe the impact on the user's experience or feelings.	Delays and uncertainty can make the employee feel frustrated and concerned.

EXAMPLE:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	an employee who needs a company laptop	request a suitable laptop through ServiceNow	the request may take time and the status may not be clear	the process can involve multiple approvals and manual follow-ups	frustrated and worried about delays
PS-2	an employee waiting for a laptop request	track my laptop request and approval status	there may be no clear real-time visibility	request information and updates may be scattered across communication channels	uncertain and stressed about when I will receive the laptop
